

Compliance with Customs Requirements (Import Companies)

The guide

The questions listed below serve as a guide from Jordan Customs to help companies/ supply chain companies determine whether they are prepared to carry out self-assessments of their processes. The following questions aim at identifying whether a company/ supply chain company is willing to implement specific and documented procedures to improve its compliance with customs and trade requirements. If a company does not have in place any such procedures, it may indicate in the appropriate columns that it plans to implement procedures in the future and the time it expects to do so.

“Yes/ No” Column

To answer the questions in the lists below, write either “yes” or “no” in the “Yes/No” column as appropriate. A “yes” answer means that the company has in place a specific and documented procedure for the matter in question. A “no” answer means that the company does not have a procedure for the matter in question.

“Plan to implement Procedures” Column

If the answer in the previous column was “yes”, no answer is required in this column. On the other hand, if the answer in the previous column was “no”, the company may state either “yes” or a “no” in this column as appropriate. “yes” means that the company plans to implement appropriate procedures in the future regarding the matter in question, while “no” means that the company does not intend to implement any procedures in the near future. Answering “yes” and indicating the expected time for implementing procedures in the future means that the company is determined and willing to take appropriate procedures, which is a very positive thing and means that the company could be selected to join the Golden List as long as it demonstrates the intention to improve its current situation by implementing new procedures in response to the question. If the answer is “no”, the company is not required to indicate an expected date.

“Expected Date” Column

If the company answers “yes” in the previous column”, it must indicate the appropriate and expected date for implementing the needed procedure in response to the question.

Notes:

- ❖ **Questions in the above checklists are classified into three categories of requirements:**
 - ❖ **Basic:** must be met by the company and does not call for developing a compliance improvement plan. The code for this category is (A) and shall be added next to the question number.
 - ❖ **Important:** must also be met by the company and calls for developing a compliance improvement plan if the compliance of the company is partial or weak. The code for this category is (B) and shall be added next to the question number.
 - ❖ **Desired:** this category is not mandatory for inclusion on the golden list and does not call for developing a compliance improvement plan, but the fulfilment of which helps to distinguish the company from other companies on the list. The code for this category is (C) and should be added next to the question.
- ❖ **Questions irrelevant to the company's nature of business do not require an answer.**
